

Multi Corer

Attention:

Please note that the Multi Corer can only be operated upon request. Request operations with the Multi Corer to AWI-Geology and AWI-Logistics in sufficient time prior to the cruise. Operations of the system require experienced scientific staff on board. The system is not operated by the ship's crew.

Summary

This corer is used to collect multiple undisturbed sediment samples including the sediment-water interface and overlying supernatant water, and sediment pore water at a high quality.
