

Customs

Journey to and from a destination

Transporting scientific equipment in your hand luggage may lead to problems with customs at the airport and should therefore be avoided. Alcohol and tobacco products must not be brought onboard yourselves because the captain cannot attend to his reporting obligations in the harbours. Own custom goods (z.B. alcohol, cigarettes, other purchases) have to be taken off the ship personally. A later pick-up in Bremerhaven is not possible. Pay attention to customs regulations and exempt amounts! You yourself are liable in the event of violation!

AWI harbour warehouse

The AWI harbour warehouse is located in the free zone of the harbour of Bremerhaven which is foreign territory from the customs point of view.

More detailed information about the harbour warehouse kann be found [here](#).

AWI customs informationen

Detailed information about customs handling at AWI are shown on [the AWI webpage](#).
