Data Contact Persons during the expedition

Data Contact Persons for each teams were designated for each leg.

Role of Data Contact Persons:

- act as multipliers for knowledge
 - on best practices in SENSOR specific for team
 - on SENSOR, DSHIP, MCS on Board
 - how SENSOR, DSHIP and MCS relate
- first contact for questions regarding SENSOR
- help reassigning, editing (and entering new) devices
- know where to get documentation
- keep an eye on data for their team: **Is raw data being stored in MCS appropriately and in time?**
