

CryoSat-2 data available in version 2.5

The most recent version of the AWI CryoSat-2 sea ice product has been published on the AWI ftp:

ftp://ftp.awi.de/sea_ice/product/cryosat2/v2p5/nh/

The data release includes a full mission reprocessing from November 2010 and April 2022 and operational processing (including near real-time) from October 2022 onwards.

	Reprocessed (33 days delay)	Near-real time (2 days delay)
Daily Trajectory	l2p_trajectory	l2p_trajectory/Latest
Weekly Gridded	l3c_grid/isoweek	l3c_grid/isoweek/Latest
Monthly Gridded	l3c_grid/month	l3c_grid/month/Latest

The change log of version 2.5 can be found [here](#).

Data from version 2.5 should not be directly compared to data from previous versions.
